

TWO REGIMENTS START FOR TAKU

Thirteenth and Fourteenth
Infantry and Fifth Ar-
tillery from Manila.

Serious Condition in China
Will Shorten President
McKinley's Vacation

ALL ARE SAFE AT PEKING

Tien Tsin, July 10.—[Special Cable-gram]—It is reported that the foreigners at Peking have taken possession of the prince's palaces and that native Christians have been installed there.

Shanghai, July 10.—[Special Cable-gram]—A courier from Peking says that the empress has resumed power and that the legations are safe.

Washington, July 10.—[Special Telegram]—The Secretary of State has received a dispatch from Consul Goodnow at Shanghai stating that it was given out by Governor Shan Tung that the legations were standing July 5 at Peking and that the outlaws were dispersing. He adds that the statement does not obtain credence.

Breaks McKinley's Vacation.

It is announced, apparently on reliable authority, that the president will return to Washington immediately after being notified Thursday at Canton of his nomination. The serious condition of affairs in China is the principal cause it is said. After the Chinese program is decided Mr. McKinley will probably resume his vacation.

American Troops on the Way

The War department at noon issued a dispatch from Gen. MacArthur announcing the departure from Manila of the Thirteenth and Fourteenth infantry and Fifth artillery for Taku. He recommends another regiment, the first leaving the States, be dispatched in addition.

Purpose of the United States.

Washington, Dec. 10.—[Special Telegram]—Secretary Hay has sent out circulars to ambassadors defining the attitude of the United States in the present circumstances in China. The circular says we regard the condition at Peking one of virtual anarchy.

The purpose of the president is to act concurrently with the powers opening communication with Peking, rescuing American officials and missionaries and affording protection everywhere in China, guarding all legitimate interests, to aid and prevent the spread of disorders to other provinces of the empire and the recurrence of such disasters.

It is too early to forecast the means attaining the last result, the circular says, but the policy of the government is to bring about permanent safety and peace in China, to preserve the Chinese territorial administrative entity, to protect all rights guaranteed by treaty and international law and safeguard for the world and the principle of equal trade with all parts of the Chinese empire.

Victory For Legation Forces.

Shanghai, July 10.—[Special Cable-gram]—It is reported that the legation forces at Peking, on July 3, captured one-fourth of the Prince's Tuan's palace which overlooks the British legation.

Outlook More Hopeful

London, July 10.—With the foreigners in Peking probably safe amid civil war, with Prince Ching on their side, with the powers united and their force constantly increasing, the outlook in China is rather more hopeful than it has been for a month past.

It appears from the cautious statement given out by Tactai Sheng in Shanghai that the reason that the heavy guns bearing on the legations at Peking were not used is that Prince Ching, who is served by 10,000 troops, seized all the artillery ammunition.

Sheng likewise intimates that Yung Lu, commander in chief of the northern army is associated with Prince Ching in opposing Prince Tuan's ferocious designs and dictatorial ambition.

Sheng Is Very Cautious

Sheng, who appears to be the sole Shanghai conduit of Peking news, cheers the foreign consuls by these confidential communications, but takes excessive precautions to prevent the Chinese from thinking him friendly to the foreigners.

To Send Two More Regiments

Washington, D. C., July 10.—Two additional regiments—probably the Fourth and Eighteenth—will sail from Manila for Taku at once, to reinforce the Ninth Infantry, which was today reported as having arrived at Taku.

The decision to send two more regi-

ments to China at once was reached at a conference between Secretaries Long, Root, and Hay to consider a message from Admiral Kempf in reply to an inquiry from the president for an estimate of the number of troops required. His opinion was that an international army of 60,000 would be required for effective work. Secretary Long today also ordered General Heywood to assemble 500 marines at San Francisco to sail August 1.

Must Use Philippine Troops.

The department authorities have strongly opposed utilizing any of the troops in the Philippines because of the strong arguments of General MacArthur against his forces. The majority of the administrative officers, however, recognize that whatever is to be done in the way of attempting to relieve the besieged legations must be done at once, and troops in the Philippines must be used for the purpose, as soldiers cannot possibly be sent from this country in time.

The transports, Indiana, Pennsylvania and Sherman are available at Manila and an announcement is expected here at any moment now that troops have sailed from Manila.

Twenty Thousand Troops Landed.

Vienna, July 10.—[Special Cablegram]—The commander of the Austrian Corvette Zenta, now at Taku reports that the number of foreign troops thus far landed is twenty thousand, sufficient in his opinion, for holding Tien Tsin and Taku. He adds that the Empress Dowager has left Peking.

GERMAN SQUADRON SETS SAIL

Emperor William Gives the Troops Stern Instructions.

Kiel, July 10.—The German east Asiatic squadron has sailed for China. Emperor William and Prince Henry of Prussia witnessed the departure of the warships. Addressing the first naval division prior to its departure, Emperor William said:

"You are the first division of armed ships which I send abroad. Remember you will have to fight a cunning foe, provided with modern weapons, to avenge the German blood which has flowed. But spare the women and children. I shall not rest till China is subdued and all the bloody deeds are avenged. You will fight together with the troops of various nationalities. See that you maintain good comradeship with them."

Washington, July 10.—The following telegram was received last night by Minister Wu from Sheng, director general of the imperial telegraphs at Shanghai, dated yesterday:

"July 3, two legations in Peking still preserved. All ministers safe. Rebelious troops and rioters made attacks, but suffer heavy losses."

London, July 10, 10:52 a. m.—Admiral Bruce has sent a telegram to the admiralty department from Taku under date of July 7 to the effect that there are grounds for hoping that Prince Ching, with his army, is at Peking, protecting the legations against Prince Tuan, his army and the Boxers.

Brussels, July 10.—A Shanghai dispatch of this date received here says a Chinese newspaper asserts that Prince Ching's troops have arrived at Peking to revictual the Europeans and defend them against the rebels.

Oregon at Chefoo.

Washington, July 10.—The Navy Department was informed this morning that the Oregon has arrived at Chefoo. She will start for Kure, Japan, to dock July 10 or 12.

Ninth Infantry Safe.

Chefoo, July 10.—The transport Logan, bearing the Ninth Infantry, U. S. A., on the way to Taku, passed here Friday.

Japan to Send More Troops.

Yokohama, July 10.—The government has decided to immediately dispatch 23,000 men and 5,000 horses to China. The newspapers in endorsing this action point out that, should the foreigners at Peking perish, Japan could not be absolved from blame.

Gives \$150,000 to the Buffalo.

Buffalo, N. Y., July 10.—The treasurer of the Pan-American Exposition company has received a check from the New York Central Railroad company for \$150,000, the full subscription of that company to the exposition.

Got the Best of the Lawyer.

A certain Glasgow lawyer was fond of setting traps for workmen who might happen to be working in or about his house by leaving money or some valuable article about. A workman, well aware of this fact, found a half-crown lying on the floor in one of the rooms. He smiled as he said to himself, "I know what that's for," and, taking a brace and bit from his bag, he drilled a hole in the coin, and, putting a large screw nail through it, he fastened it securely to the floor. The lawyer has not set any traps since.

The Czar's Estates.

The Czar has one estate which covers over 100,000 acres, more than three times as large as England; and he has another estate which is more than twice the size of Scotland.

MEN WHO DEAL IN LABOR STATISTICS

STATE COMMISSIONERS MEET
IN MILWAUKEE TODAY.

New Officials Will Learn the Methods of the Old Ones—Prof. Urdahl of Madison, Carroll D. Wright and James W. Latta Will Deliver Instructive Addresses.

Milwaukee, July 10.—The National Association of Labor Statisticians began its sessions in the Hotel Pfister at 10 o'clock this morning. The association is made up of the labor commissioners of the different states of the Union together with their deputies, some thirty-three states being represented in the membership. There are between thirty and forty commissioners and deputies present.

Carroll D. Wright, chief of the Bureau of Statistics at Washington, and the leading statistician in this country is the president of the association and opened the proceedings this morning with a short address.

Gov. Scofield Makes a Speech.

Gov. Scofield gave an address of welcome to the visitors on behalf of the state of Wisconsin and Mayor Rose performed a like office for the city of Milwaukee.

Prof. T. K. Urdahl of the State University read a paper on Labor in Colonial Possessions this morning and tomorrow James W. Latta, secretary of internal affairs of Pennsylvania will speak "Of the Law and of Economics."

A number of entertainments have been provided for the visitors, but while the program is spread out to cover four days' session, President Carroll said this morning that he thought they would be ready to adjourn Thursday afternoon.

Back to 1892 in Wages

Halford Erickson, commissioner of labor of Wisconsin, is in the city for the purpose of attending the convention. In speaking of the condition of labor in Wisconsin, Mr. Erickson said last evening: "So far as wages are concerned, we are back to 1892. In some of the industries the wages paid are above those paid in 1892, and in a few others they are slightly below, while the general average of all is higher than in 1892."

"Our manufacturing industries also showed an increase in 1897 over 1896 of about 8 per cent; in 1898 over 1897 an increase of 10 per cent, and in 1899 over 1898 an increase of between 11 and 12 per cent, which shows a steady healthy gain in the state."

Report on Child Labor

"We have prepared a very complete report on the subject of child labor, which will be issued in a few days. Our statistics cover in a general way the problem in England and the United States under the factory system, and then takes up the subject in Wisconsin. Our inspectors have been through all of the larger and many of the smaller factories in Wisconsin, and have taken down the facts in relation to the age, wages, conditions of employment, and the schooling of the children employed in our factories, as well as the economical condition of their parents."

BOERS SHOWING MUCH ACTIVITY

Mails Have Been Suspended to Johannesburg and Telegrams for Pretoria Are Refused.

London, July 10.—The Cape Town correspondent of the Standard says, under date of July 9: "The postoffice authorities have issued a notice that the civil mails have been suspended for Johannesburg. This with the fact that telegrams for Pretoria are refused causes uneasiness."

Boers Show Much Activity

London, July 10.—As Lord Roberts' dispatches reveal the Boers are unusually active, both in the Orange colony and the so-called pacified western Transvaal, but without producing any serious impression upon the British army.

Elks in Annual Convention

Atlantic City, N. J., July 10.—[Special Telegram]—The fourteenth annual convention of the Elks began here today with ten thousand in attendance.

Thinner Than Tissue.

Goldbeaters, by hammering, can reduce gold leaves so thin that 232,000 must be laid upon each other to produce the thickness of an inch, yet each leaf is so perfect and free from holes that one of them laid upon any surface, as in gilding, gives the appearance of solid gold. They are so thin that if formed into a book 1,500 would only occupy the space of a single leaf of common paper, and an octavo volume of an inch thick would have as many pages as the books of a well-stocked library of 1,500 volumes, with 400 pages in each.

Taxed for Wearing Male Attire.

In France women are allowed to wear men's attire, but they must pay for the privilege. The amount of the tax which a woman pays for wearing masculine garb is about \$10 a year, but her willingness to pay the tax does not insure her the right to wear these garments. As a matter of fact, the right is conferred by the government as a tribute of great merit.

NATIONAL LEAGUE BICYCLE RIDERS

TWENTY-FIRST ANNUAL MEET
OPENS AT MILWAUKEE.

Business Has No Place in the Program, but Entertainment of One Kind or Another Has Been Provided Until Sunday Night, When the Meet Will Close.

Milwaukee, July 10.—Today at noon the twenty-first annual meet of the National League of American Wheelmen opened in Milwaukee. Many experts are on hand to compete in the races of the National Cycling association to be held at the Exposition building, morning, afternoon and evening, beginning Thursday and concluding Sunday night. At 12 o'clock noon today the headquarters of the league at the St. Charles hotel were opened, the credentials examined and badges and souvenir programs issued. The visiting wheelmen were received and welcomed by a committee of Milwaukee women and the features of the week which have been arranged for their especial benefit were explained to them.

There is no business character to the gathering of the wheelmen and wheelwomen of the country, the meet being purely a pleasure affair and amusement for the only end. There are no meetings held other than those of a social character.

Grand Circuit Opens

So far as sport in general is concerned the racing in Milwaukee this week will have national importance, as the meet is the first of the grand circuit of the N. C. A. and several championship events are on the programme. Points are scored in the racing and those earned during the four days of racing in Milwaukee will have an important bearing on the results.

The racing men on the ground today including the Milwaukee entries were Stephenson, Kimble, Kiser, King, VanCott, Denny, Oldfield, Newkirk, Wehr, Weber, Schmitz, Aldridge and Muss. Among those expected today are Stevens, Cooper, Taylor, Eaton, Kramer, Fisher, Rutz, Houseman and Boler, which is the cream of the men in the business. Informal receptions will be tendered to the visiting wheelmen at the Carleton, Calumet and other club houses.

TO BOLT BRYAN TICKET

Gold Democrats Will Not Keep Up a Separate Ticket But Will Vote For McKinley.

Indianapolis, Ind., July 10.—Leaders in the national gold democratic conference, which is to be held here on July 25, today stated that the party probably would not nominate a ticket, now that the Kansas City Democracy has endorsed the 16 to 1 ratio, but will adopt resolutions to support McKinley.

Treasurer Frenzie of the national committee says he has received hundreds of letters since the Kansas City convention urging that the sound money movement among democrats be kept alive in this campaign.

Men high in the gold democratic party say the National committee at its meeting two weeks from Wednesday will adopt resolutions in substance as follows:

1. A strong reaffirmation of the Indianapolis platform.
2. An emphatic condemnation of the Chicago platform.
3. A declaration that the election of Bryan is the greatest menace before the country.
4. A pledge that all Gold Democrats that are loyal to the Indianapolis platform of 1896 will employ the most effective means to defeat Bryan.

Such a course, while it would be equivalent to an open declaration of allegiance to the republican party would put the gold democracy in the attitude of accepting republicanism only as a means of crushing Bryan and 16 to 1.

GERMAN VOTE LOST TO THE DEMOCRATS

Silver Plank in the Kansas City Platform Turns Them to Support of McKinley.

Chicago, July 10.—German Americans of the middle West dislike William Jennings Bryan's free silver theories as much now as they did in 1896. The 16 to 1 dose has not been made more palatable to them by flavoring it with "anti-imperialism" and pro-Boer declarations.

Representative German-Americans in Chicago and Milwaukee say so. Public sentiment in St. Louis and Cincinnati and other typical centers of Germanic thought and influence runs in the same direction. While a tendency to desert President McKinley on the Boer and "imperialistic" issues has been proclaimed all over the Western country, and more than half believed by many, it appears to have been effectually stopped if it ever existed, when Bryan insisted upon reiteration of the silver plank of 1896 in the democratic national platform.

Schweinfurth Renounces His Faith

Rockford, Ill., July 10.—[Special Telegram]—Schweinfurth, famous as the alleged messiah and owner of "Heaven," announces his renunciation of faith. He will leave "Heaven" immediately.

VANGELDER-NELSON WEDDING

Well Known Janesville People United at Rockford Yesterday

At Rockford, Ill., yesterday afternoon the Rev. P. W. Snyder united in marriage Henry Van Gelder and Miss Marion Nelson of this city.

The bride is the youngest daughter of Mr. and Mrs. L. M. Nelson of this city, and is a young lady whose pleasant ways and happy disposition has made for her a large circle of friends. The groom is a young man who has resided in Janesville for the last five years, and who has a host of friends, who will join in wishing the young couple a long and prosperous wedded life.

Mr. and Mrs. Van Gelder will go to housekeeping at once at 211 Jackson street. They will be at home to their friends after July 10.

WILL PUT IN A NEW FRONT

Improvement Proposed for the Bower City Bank

The Bower City Bank is to be improved by a new front. The Hayes Brothers will remove the old front and a modern one something on the style of the main entrance to the block will be put in. The double doors at the entrance will be replaced by a single door with a large plate glass. When completed the front will be as handsome as any in the city and greatly improve the appearance of the bank.

GEN. PALMER WANTS GOLD DEM. TICKET

Springfield, Ill., July 10.—[Special Telegram]—Gen. John M. Palmer says if Bryan succeeds at all it will be by debauching the democratic party and persuading them that silver bullion can be advanced to the price of gold and converting the party to populism. He says the gold democrats will call a convention and will have a ticket in the field.

CANTON PREPARED FOR NOTIFICATION

McKinley Getting Ready to Receive Senator Lodge and Committee—Thursday's Program.

Canton, O., July 10.—Preparations for receiving Senator Lodge and other members of the notification committee on Thursday are receiving attention at the McKinley home today. The special train is expected to leave Cleveland about 9 o'clock and reach Canton about 11 o'clock.

The old committee of 1896, the Citizens' reception committee, and the Canton Troop will take charge of the committee, at the station, and President McKinley, Senator Lodge, and probably other distinguished party men will occupy the porch, with the members of the committee on the lawn immediately in front. Senator Lodge will speak from the porch and President McKinley will respond, and it is probable others will speak during the day. A tent will be erected on the lawn, and in it lunch served to the committee.

ST. LOUIS CAR STRIKE ON AGAIN

Decided by Former and Part of Present Employees to Resume War—Danger in Boycott.

St. Louis, Mo., July 10.—[Special Telegram]—The street car boycott went into effect again at five o'clock this morning; but the operation of cars continues without interruption. No violence.

St. Louis, Mo., July 10.—Another period of lawlessness, attacks on women, and loss of life is in prospect for St. Louis. The street car men's union last night declared an immediate renewal of the strike, with an incidental boycott, which went into effect at 5 o'clock this morning.

The chief gravity of the situation lies in the general boycott, which was promised on Sunday by the Central Trades and Labor council, representing 150 local unions.

The Street Car Men's union, which took this action, embraces all the former employees of the Transit company and such of the members who have returned to work. Their decision was reached at a mass meeting of the union held in the West End Coliseum.

While the strike was declared immediately effective, it was decided that the boycott should not go into effect until this morning. Power to formulate and place the position of the strikers before the public was delegated to the new executive board, which will be elected today.

It was decided that in the future no proposition dealing with a settlement of the strike should be considered unless placed before members of the union in mass meeting assembled.

Illinois Republican Clubs.

Decatur, Ill., July 10.—[Special Telegram]—The state convention of republican league clubs began today and several hundred delegates are present. Lieut. Governor Northcott made the speech of the morning. John Parker of Rock Island will probably be elected president.

TOWNE WILL YIELD TO MR. STEVENSON

Candidates For Vice President Consulting With Bryan at Lincoln

REACH AN AGREEMENT

However There is a Grand Kick Among the Populist Rank and File.

DISCUSS CAMPAIGN PLANS

Lincoln, July 10.—[Special Telegram]—At the ratification exercises at 2 o'clock this afternoon, the speakers were Davis of Missouri, Davis of Texas and Senator Allen. This evening Towne, Gen. Weaver and Congressman Shafroth of Colorado will orate. Bryan and Stevenson will deliver short addresses at both sessions. Bryan will open the campaign the middle of August either at Lincoln or Indianapolis, probably the latter at the same time receiving his notification.

Lincoln, Neb., July 10.—Some political history was made in Lincoln yesterday when two vice presidential nominees met and discussed dispassionately the advisability of one withdrawing from the race in order to benefit the other.

Adlai E. Stevenson reached Lincoln at 11 o'clock and Charles A. Towne was present to greet him and to surrender unconditionally. Towne's withdrawal will be the outcome of the meeting today if the populist end of the fusion trinity does not take the bit in its teeth. Just how far the populists will go in their demand that Mr. Towne remain on the ticket cannot be determined until tomorrow when the fusion state convention will be held here.

Vice Chairman Edmiston of the populist national committee, Governor Poynter, and many other populist party leaders of this state are opposed to any such program at the withdrawal of Towne. They fear it will threaten fusion victory in Nebraska.

It is the understanding that Mr. Towne will pull out when W. J. Bryan gives the word, which it is supposed will be a few days before the notification committee from the Sioux Falls convention calls on its nominees.

Campaign Plans Mapped Out.

Plans for the campaign were pretty well mapped out today, but the big men of the committee will not be announced until after Chairman Jones reaches Chicago and confers with men who are waiting for him there. Chicago will be the main headquarters, but Lincoln will play a much more prominent part than it did four years ago.

Mr. Bryan said it would require further conferences before he could outline his personal plans definitely. It is known, however, that he will spend the greater part of his time in Lincoln, addressing the crowds as they come here, and making occasional and probably one or two extended trips, as the committee thinks best.

Chairman Jones announced that the campaign would be directed by four committees—Ways and Means, Executive, Press and Campaign. The only chairman thus far decided upon is J. G. Johnson of Kansas for the Campaign committee.

Lincoln assisted by fusionists from over the state, will tonight ratify the work of the Kansas City convention.

WEAPONS BARRED IN GOEBEL TRIAL

All Attending Searched Before Entering Court—Scherer of the Defense to Postpone Trial.

Georgetown, Ky., July 10.—[Special Telegram]—When the trial of the alleged assassins of Goebel was resumed this morning, the usual precautions were taken in searching everybody for weapons before entering the court. The list of witnesses for the defense was called. The defense asked time to prepare an affidavit for a continuance, owing to the non-appearance of fifty witnesses. The court granted until 2 o'clock this afternoon. Evidently the scheme is for postponement.

Money in Cocoanuts.

This coconut industry is well worth the consideration of enterprising Americans, for it has resulted in the making of tremendous fortunes. A coconut tree yields fruit within five years after planting, and then bears uninterruptedly for over a century. Those engaged in shipping the copra to Europe pay \$1 per year for the fruit from a single tree. The trees, once planted, need no further consideration. Ten thousand trees cover a comparatively small square, as there are no branches. The trees invariably grow best in what is for all other purposes the poorest soil.—Leslie's Weekly.

THE NEWS FROM COUNTY TOWNS

THE GAZETTE AGENCY
W. H. CLARKE, Manager,

Miller of Milton officiating. Mrs. Nellie Jacobson is visiting relatives on the River road this week. Mrs. Mate Green and Mrs. Anson Bliven of Edgerton spent Sunday with Mrs. Mary Fassett. Mr. Monroe, a student of Milton college, is working for Wade Looftboro. Mildred Crandall of Janesville is spending the week with relatives. Jennie Rose will teach again in the McKee district.

FOOTVILLE

Footville, July 10.—The annual school meeting last week elected Dr. Lacy to the office of treasurer. Very satisfactory reports were given, and some steps taken for further improvement. The teachers for the ensuing year are not yet hired. The storm of last Friday night was one of the hardest of its kind ever known in this vicinity. Several windmills and tobacco sheds were destroyed, barns moved from their foundations, and more or less damage to crops done. No one was injured. The glorious Fourth passed off very pleasantly. Despite the heat many people

Young Mother Ends Two Lives.

Philadelphia, Pa., July 10.—The dead bodies of Mrs. Elizabeth Shants, 27 years old, and her 5-year-old daughter Irene were found by neighbors in their home at 2044 Orianna street. The mother lay on the bed, with her child alongside of her. The little one had been poisoned by her mother, who, after watching her baby die, had turned on the gas and ended her own life. Mrs. Shants' husband was accidentally killed a year ago. She became melancholy and avoided her neighbors and friends. Since yesterday she had not been seen by the neighbors, so this afternoon the strong odor of gas caused an investigation, which led to the discovery of the double crime.

Lightning Strikes Two in Bed.

English, Ind., July 10.—Mr. and Mrs. Thomas Guest, living four miles from here, were struck by lightning, both being completely paralyzed and he struck blind. The bed upon which they slept stood by a window, through which the lightning flashed. The unfortunate couple lay more than a half hour after the stroke before Mrs. Guest's mother came from another room to complain of being injured by the shock. Physicians have no hope of permanent relief for the young couple.

Woman Slays with a Shotgun.

Little Rock, Ark., July 10.—Near Falcon, Columbia county, Lee Watson was shot and killed by Mrs. James Henry. Watson went to the Henry home and Mrs. Henry alleges attacked her. She seized a double-barreled shot gun and emptied both barrels at Watson. Mrs. Henry was arrested on a charge of murder.

Report of the Highway Committee to the Common Council Last Night—New Electric Lights Placed—\$82.125 to be Raised for Taxes for the Coming Year.

At a regular meeting of the Common Council held in the Council Chambers last evening, Mayor Richardson presided and all the aldermen were present except Alds. Gilkey and Valentine. The finance committee reported favorably on a batch of bills presented by the city treasurer. The deed of a lot in Spring Brook, donated by Hon. John Thoroughgood for school purposes, was accepted. The report of the Municipal court for June was received and placed on file. The claim of Henry D. McKinney for damages caused by a defective street was referred to the judiciary committee who asked for more time to consider which was granted.

The report of the public library board for the past year showing the condition of the library at present, the number of improvements that had been made and what was needed for the coming year was presented and placed on file. The following shows the number of books drawn out during the year and the receipts and disbursements:

During the year there has been drawn out of the library 44,028 books for general reading, the largest number drawn out in any day being 446, being a large increase over previous years and averaging about 4,600 books per month since January 1.

The following is a statement of receipts and disbursements from July 1, 1899, to June 30, 1900:

Permission was granted to a number of First ward citizens to build a private sewer from Ravine street in the First ward to the river, with the provision that the city should have the right to use the sewer at any time for city purposes free of charge. Any person on the line has the right to connect with same upon payment of twenty-five dollars.

Thos. Kelly was given permission to build a stairway on the north side of the building at 11 North Jackson street.

An order was introduced to repair the south side of East Milwaukee street from Division to East street.

Orders for building new sidewalks in different parts of the city passed.

On motion the council adjourned.

THROWN OVER DASH BOARD

Narrow Escape of N. Fredericks in a Runaway Last Evening.

Street commissioner N. Fredericks had a narrow escape from serious injury last evening. While waiting his horse at the fountain on Pleasant street near the railroad crossing, the horse became frightened and started to run. His son-in-law F. J. Winans who was with him at the time grasped the horse by the bit but was dragged by the frightened animal for some distance. He finally broke away from Mr. Winans and backed through the gates guarding the railroad tracks and throwing Mr. Fredericks over the dash board onto the tracks, bruising him severely. He was taken to his home and Dr. James Gibson summoned. His injuries while not serious will lay him up for some days.

Czar and Japan in Accord.

St. Petersburg, July 10.—Authoritative information just obtained confirms the report that Russia has consented to and is even desirous that the Japanese should actively co-operate in the pacification of China. Russia places no limit on the number of Japanese troops to be employed, and only stipulates that this agreement is not to constitute a mandate whereby Japan will obtain a privileged position. Japan, it is added must co-operate in the work of pacification on the same conditions as the other powers.

Foresters in Session.

Milwaukee, Wis., July 10.—The supreme court of the United Order of Foresters opened a three days' session at the St. Charles hotel today. Seventy delegates are in attendance. Mayor Rose welcomed the gathering to the city, and Supreme Chief Ranger James Schoonmaker of St. Paul responded. The sessions are to be secret. The condition of the order is reported as flourishing. The chief business to come before the convention will be the election of officers.

Thief Steals Croker's Pups.

Deal Beach, N. J., July 10.—Richard Croker, Jr., mourns the loss of three imported bull pups, stolen from his kennel near the Hathaway Inn, Sunday, by some unknown persons. The pups were pure white and were only five months old. They were taken during the keeper's dinner hour. Mr. Croker informed the police at Long Branch and Asbury Park and has offered a reward of \$25 for the recovery of his stolen pets.

Net for Flies.

A Chicago man has designed a life-saving net for use at fires, which is easy for the firemen to support, having an outer grip rope looped at intervals to the rope which supports the net, the loops being curved sufficiently to allow the men to grip the rope without binding the hands.

First Gun Fired...

Just now when Shirt Waists are a necessity we will give women a rousing benefit by making a great cut in prices. Stanley Shirt Waists are well known, and today take the lead for perfection in make and style. Naturally at this time our stock is somewhat broken but we still show many excellent ideas in waists.

COLORED WAISTS—Prices as they look after being shoved full of holes:

50c } Waists, 48c
75c }
\$1.00 }
\$1.25 } Waists, 83c
\$1.50 }

WHITE WAISTS— Many beautiful creations, the prettiest things ever shown here. They are much superior to white waists usually found in stores.

Shattered Figures:
\$1.25 waists, 95c.
1.50 waists, \$1.25.
1.75 waists, 1.40.
2.00 waists, 1.65.
2.50 waists, 1.85.
3.00 waists, 2.25.
3.50 waists, 2.85.

Don't put off coming if you need any waists. An opportunity like this to buy "Stanley" Waists at the present prices is worth taking advantage of.

The Ball Rolls....

After the 4th people are looking for bargains, and we start the ball rolling by offering 50 pieces of Fancy Dimities, that have been 8c and at that figure selling readily, — in light and dark stripes and figures, large variety of patterns; made up with a little trimming of ribbon or lace, looks like more expensive material, nice for wrappers, by offering these Dimities at 6c.

Linen Skirts.

We have received many compliments on our showings of summer skirts. Our skirts hang true, they have merit and the sale has been large. We are letting them out now at cut prices. Investigate.

Petticoats at 95c.

The petticoats are made of light weight duck, gslatea cloth and silkette, in small figures and pretty stripes, light, medium and dark colors. They have an adjustable yoke band, wide ruffled flounce, and the former price, \$1.25, was considered reasonable for them.

WOMEN who are about to take a trip will find this store a good place to get anything needed to complete their wardrobe. Our new \$5.00 Jaunting Skirts made of reversible plaid suiting, stitching around bottom, straps, inverted pleat in back, in mixtures of blue, light and dark gray, are great value.

NISSEN SHOOT THE RAPIDS

After Floating Forty Minutes in an Eddy

IN HIS BOAT THE FOOL KILLER.

Boat Spun Around Like a Top Until "Bowser's" Head Ached—Time of the Descent Two and One-Half Minutes—Says He'll Never Do It Again.

Buffalo, N. Y., July 10.—Peter Nissen, the Chicago Dane who prefers to be known as "Mr. Bowser," made a successful trip through the rapids and whirlpool of Niagara in his boat, the Fool Killer. The experience was far more terrible than he expected, and while he came out unharmed, he says he will not repeat the trip. "Mr. Bowser" wore his ordinary clothes, covered with a cork jacket. A tight-fitting jersey cap covered his head. He was not fastened into the boat, as he desired a chance to swim for life in case the boat should upset and fall to right itself. "Bowser" went into the Fool Killer at 4 o'clock and was towed out into the center of the stream by two men in a rowboat. He started from near the Schoolkops mills, close to the Bridal Veil falls. Before he got to the beginning of the rapids he struck an eddy, in which he floated for forty minutes. He was enabled to get out of the eddy by means of the foot propulsion of his boat, and after he had drifted for half an hour the men in the row boat went to his rescue again and towed him out of the eddy.

Dangerous Voyage Begins.

This time he struck the stream all right and in ten seconds his dangerous voyage had begun. Almost at once the boat pitched into one of the big foam-topped waves. The 1,250-pound keel went straight in the air as if it were a mere stick and the boat executed a somersault. For an instant boat and man were lost in the bowels of the wave. People along the shores and on the bridges thought the adventurer had met his fate thus early. But presently out of the foam rose the boat and the man. That "Bowser" had not lost heart was quickly evidenced. Holding to the boat with his left hand, he drew off the jersey cap with his right hand and waved it. A great cheer broke from the watchers ashore. The flight of the Fool Killer through the rapids occupied two and a half minutes. During one-third of that time at least the navigator and his craft were out of sight under the waves.

Passage Extremely Swift.

Just when the watching crowd thought the end had come the nose of the Fool Killer would rise from the waters and "Bowser" would wave his hat to show he was all right. The passage was so swift that it was hard to follow the boat. Whenever it dived under the waters it came up so far downstream that one could just catch sight of it, when it would disappear once more. Having safely run the rapids the little craft found itself in the whirlpool. The impetus of its journey carried it right to the vortex of the pool, where it was sucked down quickly, but rose at once and again "Bowser" swung his hat over his head. The whirlpool held him fully forty minutes. Its vortex changed. For while it would spin the boat around like a top until "Bowser's" head ached. Then it would let him whirl around in the larger circles. Gradually he worked the boat toward the outer rim. Then three men, fastened to shore with a rope swam into the river as far as they dared and caught the rope which "Bowser" threw to them. They drew him ashore.

Revelled With Cheers.

Women ran to him to shake hands and men cheered him. The navigator complained of the cold. The water was icy and he was almost paralyzed by his long immersion. "It was worse than I expected," said "Bowser." "I expected to be drowned when the boat capsized. I know I could not have swum out. I guess I'll give up the scheme to run a line of passenger boats through the rapids. I meant to go through again the 12th, but I've changed my mind." The boat was in good shape after its voyage. "Bowser" lives at 578 Francisco street, Chicago, and was a bookkeeper. He did not get a cent for making the trip.

MINERS IN SECRET SESSION.

Delegates of One Hundred and Four Unions Meet at Pittston.

Pittston, Pa., July 10.—Delegates representing 104 local lodges of the United Mine Workers, with a membership of about 16,000, began a series of secret sessions here today. The chief matter to come up for discussion will be the strikes existing in the anthracite district. There are about a dozen of them, and most of them have been going on for some time. The delegates will try to devise some means of bringing the operators and men to gether. The dockage question, which has been the cause of considerable trouble in the past, also will be discussed.

Hill Talks of Convention.

Albany, N. Y., July 10.—David B. Hill on his arrival here from Kansas City, speaking of the work of the Democratic national convention, said: "I labored to have the convention adopt a more conservative platform on the financial question, but, not being on the platform committee, my efforts were unsuccessful. I am, however, reasonably satisfied with the action of the convention, and acquiesce in the result. The ticket is a strong one, and if the enthusiasm with which it is received in the west is any indication of its popularity, it ought to be successful."

Said to Be a Swindler.

San Francisco, July 10.—Percy J. Young, who was arrested at St. Louis last night on a telegram from the police of this city, is accused of obtaining money under false pretenses. Five charges are pending against him. It is charged that he is the head of a swindling advertising concern, which it is alleged he operated successfully in Denver, St. Louis, Chicago, Kansas City and in all the large cities on the Pacific coast. Requisition papers will be forwarded to St. Louis at once.

Heat Increases Death Rate.

New York, July 10.—To the continuation of the hot weather is attributed the high death rate among children. For the first six days of July the deaths reported of children of five years old or under averaged fifty-three in Manhattan and the Bronx and forty-one in Brooklyn. Saturday's report showed fifty-one deaths of children under five years in Manhattan and the Bronx and fifty-eight in Brooklyn. Sunday's list includes forty-five such deaths in Manhattan and the Bronx.

Knoxville Bids a Convention.

Knoxville, Tenn., July 10.—Negotiations have been commenced whereby the next national convention of the Y. M. C. A. may be held in this city. Officials of the international committee have asked for information regarding Knoxville's ability to accommodate 5,000 delegates. The convention will be held in June, 1902.

WHY IT SUCCEEDS.

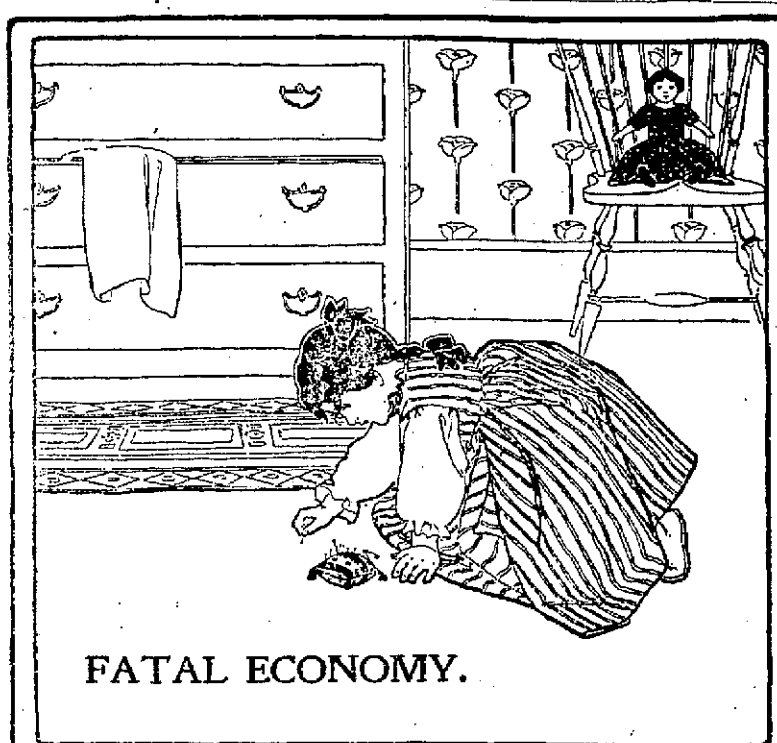

Because It's For One Thing

Only, and Janesville is Learning This.

Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills do one thing only. They're for sick kidneys. They cure every kidney backache. Here is Janesville evidence to prove it:

Mrs. S. L. Beiden, of 64 S. River St., says: "During two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and if I did a y lifting my bladder became affected, causing me considerable annoyance. I also had attacks of headaches, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them, but my daughter got a box at the People's Drug Co's. store and persuaded me to use them. They took right hold and made a wonderful change in my condition. I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

FATAL ECONOMY.

VERY old maxim declares that it isn't economy to pick up pins; the time is worth more than the pins. Similarly it is not true economy to do without Ivory Soap; your health requires the daily removal of the bodily excretions which are discharged through the pores of the skin. These tiny mouths must be kept open, and they should be opened only with a pure soap.

1584—William I (the Silent), prince of Orange, assassinated at Delft.
1753—Sir William Blackstone, law writer, was born; died 1801.
1821—Louis Jacques Mande Dauphine, inventor of the process of portrait taking which preceded photography in general use, died near Paris, born 1759.
1859—Julia Gardiner Tyler, widow of President John Tyler, died in Richmond; born 1820.
1895—Allen Pettibone, father of the Millerites, died at Hartford, born 1810.
1897—Ascent of Andre's balloon in the attempt to reach the north pole.
1898—The long truce before Santiago broken; bombardment of the city by the guns of the American army and navy.

OUT OF HIS ELEMENT.

Edward Atkinson, free-trader, mug-wump and anti-imperialist, dropped into politics in a paper read by him before the American Science Association last week. His exploit in that direction was not well received, says the American Economist, and members of the association are seriously considering the propriety of cutting off future opportunities of the kind by hereafter having Mr. Atkinson's contributions printed by their titles only. In the objectionable paper in question Mr. Atkinson is reported as saying that the United States will be on an even keel with Great Britain and Germany in the manufacture of woollens for export just as soon as we remove all wool duties and allow our manufacturers to work foreign and domestic wools together.

If ignorance may be supposed to be a disqualification for membership in a purely scientific association, an invitation to resign or a vote of expulsion would seem to fit Mr. Atkinson's case. Evidently this pseudo-scientist did not know—or if he knew he did not mention the fact, which is worse still—that there is no duty on wool or any other imported material that is used in the manufacture of goods for export. Whether Mr. Atkinson be ignorant or dishonest—and he is surely one or the other—he is out of place in a scientific organization. He should join the Bryan literary bureau, where he would not be required to be either truthful or well informed.

DEMOCRATS ARE HEDGING

"It is a noticeable fact," remarks the Albany Journal, "that already the Bryanite newspapers have dropped the Porto Rico tariff law, over which they were making a large and conspicuous fuss but a few weeks ago. That no further attempt will be made to use it as a campaign issue is plain." If the democrats continue to drop issues that are worse than useless to them, they will soon be without a plank to stand on, adds The Rochester Democrat. Our industries are flourishing under protection. Prosperity is promoted by 100-cent dollars. Expansion is a fact and the American flag floats over our new possessions. By antagonizing these things the democracy will invite and receive a crushing defeat. She full truth has not dawned upon it yet, but it seems danger and will soon be made to realize that the Porto Rican tariff law is not the only issue on which it has taken the wrong and unpopular side.

Racine Journal—The retirement of Mr. Whitehead from the field opens the First district to the LaFollette forces. This announcement from the only candidate conceded to have strength after the withdrawal of Bradford and the announced retirement of Senator Spooner at the end of his present term, clears the field for the new regime.

If LaFollette wins out he will find in the First district no querulous complaint. It will certainly support him heartily and cheerfully.

Beloit Free Press—The announced contemplated retirement of Senator Spooner is met by a unanimous expression of deep regret by the republicans of Beloit. They admire Mr. Spooner's abilities and have the fullest confidence in his political judgment and integrity.

The universal hope is that he may yet be continued indefinitely in the service of the party.

The Kentucky authorities are searching the spectators at the Goshel murder trial for concealed weapons, and if a republican is found with a gun on him, the path he travels is made exceedingly rocky. The Kentucky authorities are bound to see that justice is done, regardless of anything but democratic politics.

Of course the democrats place "imperialism" at the fore, but Bryan represents the silver issue and nothing else. Stevenson may represent imperialism; but in any event, democracy certainly has the card before the horse.

Kenosha Gazette—Since Whitehead of Janesville has withdrawn from the gubernatorial contest the field comes pretty near belonging to LaFollette.

The stump is to the launches as is the tack to the bikes. Two pleasure boats have been punctured at late, and the snags are ready, apparently, for more.

The news from China would remind one of the bet offered by the inebriated politician—"tin to wan that 'tis, or it aint."

The caucuses tomorrow evening will open at 6 o'clock and close at 8 o'clock.

The wounded Oregon will be cured at the Kure dockyards.

The launch Idelwile, to be explicit, was Organized.

He Saved the Bridge.

"At Harper's Ferry on one occasion the flood in the Potomac was so great that it threatened the destruction of the costly railroad bridge, which was seen to shake in its steadiness," said former Governor Thomas G. Jones. "When everybody present was looking each moment to see the bridge go down, President John W. Garrett of the Baltimore and Ohio railroad arrived upon the scene. Appreciating the necessity of instant action, he gave an abrupt order for a loaded train of freight cars standing on a side track to be run with the locomotive on to the bridge and kept there."

"But Mr. Garrett, that is a train-load of silk," said the local superintendent. "I don't care; run on the cars," commanded the great master of railroads. "It would be easier to pay for the silk than to build a new bridge." "The 'silk train' was run on to the bridge, and the structure was saved. The silk was being sent by rail across the continent from San Francisco, at which port it had been received from China and Japan. Garrett was a great man, one of the greatest of those who have aided in the material development of America. In emergencies he was very resourceful, as was demonstrated in perhaps a small way by the Harper's Ferry incident."—Birmingham Age-Herald.

Cards on the Cars.

"Cards are not played as much on the cars as they used to be," said the commercial traveler. "A few years ago it was a common sight to see three or four games, whist, euchre, poker or seven up, going on in a car, and wherever four or five drummers were gathered together there was sure to be a lively game of draw in progress. Suburban trains were turned into whist clubs, and morning and night the commuters were engaged in a rubber. "But all this has been changed. Nowadays it is the hardest thing in the world to get up a game of any kind in a train. Ask a stranger if he would like to take a hand at whist or euchre, and he will freeze you with a suspicious look. And, what is worse, he is entirely justified in his suspicions."

"In the last ten years the railroads of this country have been the harvest for gamblers, bunco men and short card experts. They have worked the field to the limit, from New York to California and from Vermont to Florida. They have worked all kinds of diamond games, until now it is almost impossible for a man to flash a deck of cards in the smoking compartment of a Pullman without the atmosphere growing a dozen degrees colder. A man who has been bitten once doesn't care to have the experience repeated."—Rochester Post Express.

Why So Many Young Men Fail.

"One trouble with many young men who start out in business is they try to do too many things at once," says Hetty Green. "The result is that they don't know as much as they ought to about any one thing, and they naturally fail. The trouble with young men who work on salaries is that they're always afraid of doing more than they're paid for. They don't enter into their work with the right spirit. To get on and be appreciated a young man must do more than he's paid to do. When he does something that his employer has not thought of, he shows that he is valuable. Men are always willing to pay good salaries to people who will think of things for them. The man who only carries out the thoughts and ideas of another is nothing more than a mere tool. Men who can be relied upon are always in demand. The secretest thing in the world today is a thoroughly reliable man."

Changed by Circumstances.

"Where's your watch?" asked the observant man. "Why, here it is," replied the man whose prosperity had slipped a cog or two recently.

"But that's a silver one. The one you used to carry had a handsome gold case."

"Well—er—circumstances alter cases, you know."—Philadelphia Press.

BIG REDUCTION IN TELEPHONE RATES

WISCONSIN COMPANY CHANGES LONG DISTANCE PRICES.

Rates Are Based on Conversations of One Minute or Less.—To Beloit it is now 10c, to Milwaukee 15c, to Edgerton and Evansville 10c—Extending the Lines.

The Wisconsin Telephone Company announces a reduction in long distance rates to all southern, central and eastern points in Wisconsin. These new rates are based on conversations of one minute or less, and by their adoption it is aimed to give the patron the benefit of paying only for his actual use of the line.

When interurban telephoning was in its infancy it was found that the average length of a conversation was five minutes, and the telephone companies therefore adopted it as a standard and based their rates on conversations of that length. Familiarity with the service and the extension of its use to other fields reduced the average length of conversations to three minutes, and to meet this condition, the tariffs were readjusted on a basis of three minute conversations. Further improvements in the methods and quality of service together with the more general use of the telephone for routine business, developed a large number of short time messages. In fact it has been found that a great proportion of the commercial business can be completed within one minute. It is figured that 150 words can easily be transmitted in that time and the company expects to receive a large increase in its business, particularly from people who wish to transact routine business and have not heretofore used the telephone for the transmission of such messages.

Under the new arrangement the merchant in the smaller city can call up his jobber in the larger place and order goods, at a trifling cost, and he is insured prompt shipment. Prices are quoted him and his order placed accordingly, so that there is no chance for dissatisfaction. This is an especial convenience to those who deal in perishable goods, and must therefore order on short notice. The farmer can communicate with the grain centers and keep in close touch with the market, enabling him to dispose of his stock to the greatest advantage. In short, the telephone is placed within the reach of every one for the transaction of almost any business which does not actually require the personal meeting of the parties interested.

The new rates, which went into effect on July 1, include business from Janesville to Milwaukee, Sheboygan, Manitowish, Algoma, Oshkosh, Ripon, Green Bay, Marinette, Watertown, Madison, Portage, Whitewater, Monroe, Platteville and all intermediate points. The rates are so arranged that if the patron talks three minutes he will pay no more than under the old schedule. Within a radius of thirty miles minute rates have not been quoted, but the new rates have been made on an "airline" basis, so that in nearly all cases the cost of a three minute conversation has been reduced.

Thus the rate from Janesville to Beloit is now 10 cents for three minutes and 2 cents for each additional minute, while under the old schedule it was 15 cents for three minutes and 5 cents for each additional minute. From Janesville to Milwaukee a rate of 15 cents for one minute and 10 cents for each additional minute replaces the former charge of 45 cents for three minutes. From Janesville to Watertown the new rate is 15 cents for one minute and 5 cents for each additional minute, and from Janesville to Madison the same. Edgerton and Evansville can now be reached for ten cents for three minutes and 3 cents for each additional minute. From Janesville to Oshkosh the new rate is 20 cents for one minute and 20 cents for each additional minute, replacing the former charge of 65 cents for three minutes. A one minute talk to Marietta can now be had for 35 cents, while under the old schedule the rate was \$1.15 for three minutes. From Janesville to Monroe the charge is now 15 cents for one minute and 5 cents for each additional minute, instead of 25 cents as formerly. Similar reduced rates have been made to all intermediate stations.

To accommodate the increased business which these popular rates are bringing it has been necessary to add largely to the company's facilities. From Milwaukee to Oshkosh eight new copper circuits have been constructed, and from there to Appleton six. From Appleton to Marietta three new circuits have been added. From Milwaukee west to Watertown and Madison six pairs of wires have been strung, while additional circuits have been built between Milwaukee and Janesville, Janesville and Monroe, Janesville and Madison, Racine and Kenosha, Sheboygan and Appleton, and from Monroe west to Shullsburg, Darlington, and Dubuque, Iowa.

The work of construction is proceeding as fast as possible, and, as soon as the facilities will permit, the new minute service will be extended to include the company's entire system.

Mrs. Mary Kober's Funeral Services over the remains of the late Mrs. Mary Kober were held at the residence of her daughter, Mrs. A. G. Wilkinson, 127 Terrace street at 8 o'clock this morning, the Reverend J. T. Henderson officiating. The remains were taken on the 9:30 train to Mineral Point. The interment will be held at Graceland cemetery.

SEALED bids will be received until Thursday morning, July 12th, for the erection of a three story brick building on the Wilcox property, Court street. Plans and specifications can be seen at the office of J. M. Bostwick & Sons.

THE Woman's Foreign Missionary society of the First M. E. church will meet Wednesday, July 11 at three o'clock at the home of Mrs. R. J. Rider, 160 South High street. Subject, Ecumenical Conference on Foreign Missions.

ALL persons who have flags or plumes used in the Fourth of July circus, are requested to leave them at The Gazette office. It is the intention to save as many flags and plumes as possible, for further use on the Fourth, and for decorations at the Midwinter fair.

A PARTY consisting of Rev. and Mrs. A. C. Kempton, Mr. and Mrs. J. F. Fitchett, Mr. and Mrs. Penny Brown, Misses Kittie Stoddard, Belle Stoddard, Elizabeth Palmer, Grace Wright and Nellie Simley and Prof. S. T. Taylor returned home yesterday from the "Dells" where they spent the last week enjoying the beautiful scenery.

A. KARY, the Syrian that has a fruit store in the Hayes block last evening had a row with a young man that was hanging around his store and making himself obnoxious. During the scuffle, the young man received a cut over the left eye about two inches long, from a blow with a club in the hands of a Syrian. Dr. Joe Whiting fixed up the cut and Officer Brown took the young man to the lock-up where he was left for repairs.

FOR a long time I was in a very serious condition from chronic rheumatism and catarrh. I consulted many doctors and there was seemingly no help for me. Three months ago I consulted Dr. Secrist and am happy to testify that he has restored me to perfect health. Fritz Kemp. If you suffer from any chronic disease and want honorable and successful treatment consult Dr. Secrist at the Park Hotel, Janesville, Friday, July 13. Thorough medical examination and an honest opinion on your case free.

Posting the monthly we aspire. How can we ever forget or dare, Needless or thoughtlessly self to neglect, So others are wronged for whom we care? Failure to fully inform ourselves With health and life itself at stake, Knowledge of Turkish Baths would save, Is to loved ones unjust—a cruel mistake!

MANAGER ZACHOW IS ROBBED OF \$86

LOCAL POSTAL TELEGRAPH AGENT IN HARD LUCK.

Some Sneak Thief Got Into His Room at the Highland House and Ransacked His Trunk—Money Belonged to the Telegraph Company—Police Have a Clue.

G. C. Zachow, manager of the Postal Telegraph company was robbed Saturday noon of \$86.02.

Mr. Zachow, who boards at the Highland House and has a room on the second floor, had the money stored away in his trunk. The greater portion of it belonged to the Telegraph Co. Mr. Zachow had collected the money and Friday night carried it home with him intending to purchase a draft to send to the company the next day.

He went home about 1 o'clock on Saturday and on going to his trunk to get the money found it had disappeared. The money must have been taken some time between the time Mr. Zachow left for work in the morning and one o'clock as the money was there when he left for work in the morning.

The money was in a morocco case and consisted of eight ten dollar bills, one five dollar bill, two silver dollars and two pennies. Seventy-seven dollars and eighty-seven cents of this money belonged to the Postal company and the balance to Zachow. He happened to have considerable money just at this time, it being the first of the month and the money had been collected in on monthly bills.

Up to the Fourth of July Mr. Zachow had a room mate by the name of Gus Behnke whom he had known for about five weeks. Behnke had been in the office of the Postal company with Zachow and intended to learn telegraphy. He left the house on July 4, but remained around town. Since the money was lost Behnke has mysteriously disappeared and Zachow has reason to think him responsible for the loss of the money as Behnke knew Zachow was in the habit of keeping some money in his trunk for his personal use.

Zachow reported the loss to Chief Hogan and Officer Brown immediately on discovering the money was gone. They at once telegraphed a description of the suspected party to the neighboring towns and hope to have him in custody in a short time.

COLLIPS & WRAY GET THE CONTRACT

Their Bid for Erecting the Big Louis Sylvester & Son Tobacco Warehouse is Accepted.

The bids for erecting the new warehouse on the lot recently purchased of Adam Holt of this city, by H. S. McGiffin of Edgerton for Louis Sylvester & Son of New York, were opened yesterday. The contracting firm of Collips & Wray were the lowest bidders and the contract was awarded to them. The plans call for a three story brick veneered building, with an eight foot basement, to cost when finished in the neighborhood of ten thousand dollars.

SHERIFF ATTACHES LANPHER STOCK

Under an Execution Issued by Judge Dunwiddie to John Block for \$4,000.00 Damages.

Sheriff Appleby this afternoon took possession of the store and stock of G. A. Lanphier, the West Milwaukee street hardware merchant, under an execution issued by Judge B. F. Dunwiddie of the Circuit court. The execution is in favor of John Block who obtained judgment for \$4,000 against Lanphier at the April term of the Circuit court for alienation of his wife's affections.

SEVERE RAIN STORM DID SOME DAMAGE

LIGHTNING BOLTS STRUCK IN SEVERAL BUILDINGS.

The Rink Block on South River Street Struck, Also the Home of Albert Schnell on Milton Ave.—Some Damage to Telegraph and Telephone Wires.

A severe rain storm, accompanied by considerable wind and sharp lightning, struck the city about 6:30 o'clock this morning, and for a few moments looked very threatening. The wind was not as strong as expected, and passed over in a few moments. The rain was followed by several severe crashes of thunder and flashes of lightning, which did some damage.

The rink building on South River street, occupied by F. A. Taylor & Co. as a warehouse, was struck. The lightning ran along the peak of the roof for some distance, jumping to the cornice on the southwest corner; there it made two small holes in the tin covering of the cornice about the size of an electric light carbon, and after tearing the wood-work under the tin covering slightly, disappeared.

This bolt also cut off one or two telephone wires and a large copper McClure wire of the Wisconsin Telephone company, which extended down River street, allowing it to fall into the street. City Electrician Henry Kline went down to the scene of the trouble and fixed up the wires so as to leave the street clear.

The home of Albert Schnell on Milton avenue was also struck about the same time. Here the lightning struck the back of the house, running down the rear end into the ground and tearing off a large portion of the siding in its flight, but doing no other damage. The family were considerably frightened by the close call.

None of the city fire alarm wires were hurt and the apparatus was working all right after the storm.

Quite a number of the call boxes of the Western Union and Postal telegraph companies were burned out by the lightning running along the wires.

Resolutions

Whereas, an All Wise Providence has removed from earth our honored and beloved classmate, Thomas Costello.

Therefore, Be it Resolved:

That in his death we have lost a kind and loving friend, his family a respected son and brother, and the community a noble, young man.

That we extend to his bereaved parents, brothers and sisters, our heart felt sympathy in their sad affliction.

That these resolutions be forwarded by the class of '99 as a testimonial of our deep sorrow to the parents of our departed friend and to the press for publication.

OSTEOPATHY

This new science was given its name because it was, and is today, largely considered that the different bones of the body—being the chief framework—by any displacements, cause a majority of the deformities and the functional disturbances found in disease.

Study and experience has so developed this science as to consider as causes all possible obstructions to the free flow of blood or to the nerve current, be it either a misplaced bone, a contracted muscle, an engorged tissue, or a constricted vessel.

Thus, Osteopathy, like all other true sciences, has outgrown its original conception, and has become so broad and specific as to be applicable to the treatment of all diseases.

Any displacement, disorganization, derangement and consequent disease, is readily recognized, properly diagnosed and mechanically restored to the normal equilibrium of form and function by external adjustment, rather than by internal medication.

BRITISH OFFICERS KILLED.

Capt. Currie and Lieut. Kirk Slain in Boer War.

ROBERTS SENDS DISPATCHES

Telling of Victories Gained Over the Boers and Losses of His Own Men—Afrkaner Women Protest Against Annexation of the Republic.

Defeats the Boer Movement.

London, July 10.—The following dispatch from Lord Roberts has been received at the war office:

"Pretoria, Sunday, July 8.—As the enemy, for some days, had been threatening our line of railways by trying to get round our right flank, I dispatched Hutton, July 5, with mounted infantry, to re-enforce Mahon and with orders to drive the Boers to the east of Broekerspruit. These orders were effectively carried out during Friday and Saturday by Mahon, who was attacked by some 3,000 men with six guns and two Maxim's. Our casualties were: 'Wounded, two officers, including Captain Nelles of the Canadian Mounted Rifles, slightly, and twenty-six men. Steyn left Bethlehem the night of July 4 for Fouriesburg, between Bethlehem and Ficksburg, accompanied by Christie Devitt and other Free State commanders, with troops reported numbering 3,000 men. Hanbury-Tracy, commanding at Rustenburg, reports that a party of Boers under Limmer called on him yesterday to surrender the town and garrison. Hanbury-Tracy replied that he held Rustenburg for her majesty's government and intended to continue to occupy it. The enemy then opened fire with artillery, and tried to take the heights commanding the town, but did not succeed, owing to the good arrangements made by Hanbury-Tracy and his officers. Eventually the Boers were driven off with the assistance of Holdsworth and his Hussars, who made a rapid march of forty-eight miles from the neighborhood of Zeebrugge, with the bushmen under Colonel Aire, on hearing Rustenburg was likely to be threatened. The enemy suffered heavily, and five men were captured. Our casualties were two men killed and one officer and three men wounded."

Another dispatch from Lord Roberts is as follows:

"The officer commanding at Hellbron reports that State Secretary Blignaut, State Attorney Dickinson and Members of the Council Vantander and Kuppervergen came in yesterday and surrendered. Hutton was attacked yesterday in a position he was holding by a large number of Boers. He cut them off without much difficulty, the five-inch guns with him being found most useful. Our only casualty was Lieutenant Young of the First Canadian mounted troop—slight scalp wound. The enemy left several wounded on the ground and sent a flag of truce with a request that they might be received in our field hospital. I regret to say that Captain Currie and Lieutenant Kirk of the Imperial Light Horse, who were reported wounded in my telegram of yesterday, were both killed. One squadron of this distinguished corps pressed a very severe force of the enemy on a gallant attempt to carry off a wounded comrade, to which they attributed the heavy loss sustained. In addition to the officers a farrier sergeant and three troopers were killed and the sergeant major, three sergeants and several troopers wounded."

Afrkaner Women Meet.

Cape Town, July 10.—At a meeting of Afrkaner women here, called to protest against the annexation of the republics to the British empire and the punishment of the rebels, Mrs. Olive Schreiner Cronwright denounced the British policy. She said she was ashamed of her English descent and added:

"If the republics are annexed, if the Afrkaners are oppressed, peace is impossible. Every trench of Boer dead is a grave of England's honor. Every bullet making a wound also finds a bullet in the heart of the empire."

It is reported here that President Kruger's retention of large amounts of gold at Mafeking has created the utmost discontent among the mercenary, officers and men. They expected substantial rewards for championing the Boer interests, but have received nothing. It is added that visiting foreigners who have subsequently advocated intervention are believed to have received substantial sums. Proofs, it is further asserted, have been discovered in Pretoria which promise startling developments.

Anxiety in London.

London, July 10.—The city is becoming unmistakably restless for news of decisive action in South Africa. Lord Roberts' delay in cornering the elusive De Wet has begun to call forth criticism, although it is by no means forgotten that just such a lull has preceded the accomplishment of every one of the field marshal's vital operations. It is believed that Gen. Buller's arrival at Pretoria, completing the barrier between the Transvaal and the Orange Free State, is all that Lord Roberts has been waiting for before striking his long-planned blow.

Prominent Hebrew Dead.

New York, July 10.—James H. Hoffman, president of the Hebrew Technical institute, trustee of the Baron de Hirsch fund, and for more than thirty-five years prominent in Hebrew charities in the United States, is dead, aged 67 years.

KILLED WHILE DRIVING.

Prominent Columbus Family Thrown from Carriage.

Columbus, Ind., July 10.—Ed Mooney and family were driving last evening when their horse scared at a dog and ran away, throwing all violently to the ground. His two children and Miss Gray, stenographer, escaped with but slight bruises. Mr. Mooney died at midnight, and Miss Talbot, his housekeeper, may die. Deceased was the senior member of the firm of W. W. Mooney & Sons, owners of the largest tannery in the world, located in this city.

Endeavorers Sail for Europe.

The steamship *Utopia* sailed for Liverpool from Boston Sunday with 180 Christian Endeavorers, the majority of whom are from Illinois. If the party arrives on schedule time its members will get two days at the great international gathering at London. William S. Hawk, treasurer of the United Endeavor societies, was in charge of the party. Only about 1,500 Endeavor delegates remain here and they will sail from New York on the steamship *New York*. The excursionists were given a grand farewell at the wharf.

Venezuelan Revolt is Rising.

Kingston, Jamaica, July 10.—General Gonsior, the Venezuelan minister to Colombia, arrived here on his way to Caracas to report to his government specially on the Colombian revolution. He said another revolution is impending in Venezuela, headed by Dr. Petrie. A private cable dispatch received here announces that starvation practically exists at Carthage, Colombia, and that the rebel general, Uribe, was recently near Bogota, the capital of Colombia.

Big Fire at Liverpool.

Liverpool, July 10.—An alarming fire which is not yet under control broke out today at the sheds of Elder, Dempster & Co. at the Liverpool docks. Large quantities of palm oil caught fire and blazed fiercely. The flames spread to the company's steamers *Benguela*, *Bonny* and *Oron*, which, however, were towed to places of safety, and the flames on board of them were extinguished. No estimate can yet be made of the losses.

Troops Ordered to Manila.

New York, July 10.—Major-General John R. Brooke says the two battalions of the Fifteenth Infantry ordered to the Philippines are the First and Third. The First is now at Plattsburg and the Third is on Governor's island. They will number, the general says, about 1,100 men. It is expected these forces will start as soon as arrangements for transportation can be made.

Railroad for Ecuador.

Knoxville, Tenn., July 10.—J. P. McDonald of Knoxville has just been awarded the contract to build a railroad in Ecuador for the Ecuador association of Scotland. The contract price is \$16,000,000. The road will be 200 miles in length and will extend from Guayaquil to Quito, through the Andes mountains. He will at once recruit his force and expects to begin work in two or three months.

Indian Commissioners Named.

Washington, July 10.—The secretary of the interior has appointed J. B. McIntire of Kalispell, Mont.; James H. McNeely of Evansville, Ind., and G. H. Hoyt of Beatrice, Neb., commissioners to deal with the Crow, Flathead and other Indians under the act of June 6, 1900.

Shoots Down a Wife Beater.

Poplar Bluff, Mo., July 10.—James L. Crisham of Scott county went home intoxicated and whipped his wife. She fled to the home of her brother-in-law, Robert Crisham. The enraged husband followed and attempted to repeat the beating. His brother interfered and after a quarrel shot James twice, fatally wounding him.

Little Improvement in India.

Curzon Reports Relief from Rain in Some Provinces.

London, July 10.—The secretary of state for India, Lord George Hamilton, has received the following from the viceroy of India, Lord Curzon of Kedleston:

"The rainfall has been fairly general this week in Bombay, Bejar, Khandeish, the central provinces of the Gangetic Plain, and the Punjab, but has been much below the average for these tracts, except in southern Deccan. Little or no rain has fallen in Rajpootana, Guzerat, and central India. The cholera mortality continues high in Bombay. The May mortality there was appalling. The number of persons receiving relief is 8,013,000." The governor of Bombay telegraphs to the Foreign office as follows: "There were 10,320 deaths from cholera and 6,502 fatalities in the famine district during the last week in June."

Bride Is Sold at the Altar.

Great Falls, Mont., July 10.—After coming from Austria to marry Christopher Schmidt, Miss Lillian Meier changed her mind at the altar and married the best man, Joseph Kunz. The original ceremony was to have taken place in the little coal town of Stockett. The wedding guests assembled. Then the bride said she had decided not to marry Schmidt. She loved Kunz more, she declared. Moreover, Kunz loved her and was ready to take her. Schmidt was angry at first, but for \$65 he finally agreed to give up his role of groom and act as best man. Then the ceremony proceeded.

Marines Got Orders.

Washington, July 10.—Secretary Long showed how the navy was responding to the call for re-enforcements by ordering 500 marines to be assembled from the several navy yards and hurried to China. It is significant that these are the first military forces to be sent directly from the United States to China without instructions to stop at Nagasaki for orders. The marines will make up a force of 750 men, as the department has given orders for the equipment of 250 marines for similar service. They will be sent out on the first army transport available for the service.

Joliet Mill Again Open.

Little Rock, Ark., July 10.—News reached here that D. J. Fink and his entire family, nine persons in all, had died near Calico Rock, Marion county, from eating poisonous toadstools, supposed to be mushrooms.

Texas Tragedy.

Vernon, Tex., July 10.—John and Edward Brewer, wealthy cattlemen, were shot and killed near here by B. K. Norris. The tragedy occurred over business affairs. Norris is in the custody of the sheriff.

Killed from Ambush.

Sherwood, Tex., July 10.—Henry Vote, a leading blooded live stock breeder, was shot and killed from ambush today. The assassin has not been apprehended.

Night Work.

Extra strain needs extra strength. When a man begins to add to his hours of labor, and subtract from his hours of rest, he is putting an extra strain on brain and body. In such cases many men make the serious mistake of using stimulating liquors, or alcoholic medicines. These can only injure. The spur forces on the horse, but does not strengthen him. Stimulants are only spurs. The need of the body is strength. Dr. Pierce's Golden Medical Discovery is invaluable to overworked men and women. It strengthens the stomach, increases the blood supply, nourishes the nerves, and gives vital power to brain and body.

There is no alcohol in "Golden Medical Discovery." It contains no opium, cocaine or other narcotic. It is strictly a temperance medicine.

Dr. Edward Jacobs, of Marquette, Crawford Co., Indiana, writes: "After three years of suffering with liver trouble and malaria I gave up all hopes of ever getting stout again, and the last chance was to try your medicine. I have tried all the home doctors and received but little relief. After taking three bottles of Dr. Pierce's Golden Medical Discovery and one of his 'Pleasant Pellets' I am stout and hearty. It is due entirely to your wonderful medicines."

Nine Ate Toadstools; All Dead.

Little Rock, Ark., July 10.—News reached here that D. J. Fink and his entire family, nine persons in all, had died near Calico Rock, Marion county, from eating poisonous toadstools, supposed to be mushrooms.

Texas Tragedy.

Vernon, Tex., July 10.—John and Edward Brewer, wealthy cattlemen, were shot and killed near here by B. K. Norris. The tragedy occurred over business affairs. Norris is in the custody of the sheriff.

Killed from Ambush.

Sherwood, Tex., July 10.—Henry Vote, a leading blooded live stock breeder, was shot and killed from ambush today. The assassin has not been apprehended.

Night Work.

Extra strain needs extra strength. When a man begins to add to his hours of labor, and subtract from his hours of rest, he is putting an extra strain on brain and body. In such cases many men make the serious mistake of using stimulating liquors, or alcoholic medicines. These can only injure. The spur forces on the horse, but does not strengthen him. Stimulants are only spurs. The need of the body is strength. Dr. Pierce's Golden Medical Discovery is invaluable to overworked men and women. It strengthens the stomach, increases the blood supply, nourishes the nerves, and gives vital power to brain and body.

There is no alcohol in "Golden Medical Discovery." It contains no opium, cocaine or other narcotic. It is strictly a temperance medicine.

Dr. Edward Jacobs, of Marquette, Crawford Co., Indiana, writes: "After three years of suffering with liver trouble and malaria I gave up all hopes of ever getting stout again, and the last chance was to try your medicine. I have tried all the home doctors and received but little relief. After taking three bottles of Dr. Pierce's Golden Medical Discovery and one of his 'Pleasant Pellets' I am stout and hearty. It is due entirely to your wonderful medicines."

Dr. Pierce's Common Sense Medical Adviser, 1008 pages sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for paper covered, or 31 stamps for cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE MAN OF THE HOUR
A Magnificent Portrait of

PRESIDENT

McKINLEY

Reproduced in Ten Colors from a Late Photograph, for which the President specially sat, at the request of the Publishers. . . . (SIZE 14 X 21 INCHES.)

It has been printed for us on heavy plate-paper, in a form suitable for framing, by one of the largest art lithograph houses in America, in the famous French style of color-plate work. Every American family will want one of these handsome pictures of the President. It must be remembered that this picture is in no sense a cheap chromo, but is an example of the very highest style of illuminated printing. It will be an ornament to any library or drawing-room. Our readers can have the McKinley portrait at what it costs us (namely, ten cents per copy) by merely filling out the coupon below, and sending it to this office at once. There will be such a demand for this portrait that we advise sending orders at once. As many copies as may be desired can be had on one coupon, providing ten cents is sent for each copy. Write name and address plainly, and remit in coin or postage stamps.

CHAFFEE AND HIS MEN.

Noted American Officer's Manner of Handling His Soldiers.

CONFIDENCE THEY FEEL IN HIM.

An Incident at El Caney That Depicts His Spirit Toward Them—How the Officer Who Will Command American Forces in China Treated a Frightened Soldier.

In the whole United States army there is no officer who possesses to a greater degree the confidence and respect of the men than General Adna R. Chaffee, now on his way to China to take command of the American forces there. It is not alone his coolness, judgment and absolute fearlessness in action that endear him to his men, for these qualities are so nearly universal among the officers of the American army that they are taken for granted, but also his constant thoughtfulness and care for his men and his tact in handling them, says the New York Sun. After he returned from service in Cuba the men of his division told of an incident showing his spirit toward them and his possession of that quality so rare among soldiers who are themselves without fear, sympathy with a victim of panic.

It was at El Caney. Several companies were detailed to dig trenches, and the Spanish sharpshooters were potting at them from tree tops and clumps of bushes on the hillsides. Presently the firing became so severe that the men were ordered to drop their tools and return it. About this time General Chaffee came along on foot looking over the situation. In the bottom of one of the trenches he saw a soldier lying flat on his face, while the man next to him kicked him in the intervals of firing. As the general walked over he heard the kicked address the prostrate soldier in a savage whisper:

"Get up, you blanked fool! Here comes old Chaffee. If he sees you, you're done for."

"What's the matter with that man?" asked General Chaffee of the speaker. "Is he wounded?"

"No, sir," said the soldier, saluting. The prostrate man made no motion.

"Sun, then?" asked the general, for there were many cases of collapse from heat.

"I don't know, sir," replied the soldier in embarrassment.

All this time the bullets were whistling around, and the soldier had risen and was standing at salute.

"Don't stand there and expose yourself, my man," said General Chaffee kindly, although he himself had been standing in full range all the time. Now he walked over to the groveling soldier, took him by the collar and hauled him to a sitting posture.

"What do you mean by lying there?" he said sternly. "Get up and fight with your company."

"No, I can't," whined the fellow.

"Can't," said the general. "Well, you're a fine soldier! What business have you got here? What's the matter with you anyway?"

"I'm afraid. That's what's the matter with me," said the soldier doggedly, trying to wrest his collar from the grasp of General Chaffee.

"Beg pardon," said the man's neighbor, saluting again. "I think the kid's been sick, sir."

"That's a charitable thought," said the general grimly.

He twisted his captive about to get a good look at him, and his face, which had grown set and angry, softened at what he saw.

"How old are you?" he asked.

"Seventeen," said the soldier.

"Why, you're nothing but a child," cried General Chaffee. "I'd like to get hold of the fellow that enlisted you."

He stood thinking for a moment, while the boy sniffled. A Spanish bullet sent a little spurt of dirt up from the trenchment not two feet from where he stood.

"Beg pardon, sir. They're getting your range," said the other soldier. "Hadden't you better lie down, sir?"

The general paid no attention to the warning, but shifted his hand from the collar to the shoulder of his captive.

"Now, see here," said he kindly. "You can't help being frightened, I suppose. But there isn't nearly so much danger as you think there is. You just pick up your gun and take your position and fight, and I'll stand here by you till you get used to it."

Shaking like a leaf, the boy seized his gun and fired a shot almost straight up in the air.

"That's a little high," said his instructor. "Try it lower and take a little more time to aim. There's a Spaniard in that green thicket straight in front of you, I think."

After three or four shots the young soldier got his nerve, stopped trembling and began to shoot with some accuracy and judgment.

"That's better," said General Chaffee as he moved away. "Stay there and do your best."

Nine officers out of ten would have sent the youngster to the rear in disgrace and ruined his army career. General Chaffee's method was the better in every way. The boy fought like a veteran through the afternoon, and when the order came to withdraw he had to be dragged away by his companions, though he had been fighting for more than an hour with a bullet wound in his shoulder. He said that General Chaffee had told him to stay there, and he was going to stay. The wound was a trifling one, and before the campaign was over the boy had the reputation of being one of the best soldiers in his company. He is now a corporal and is serving in the Philippines.

THE ENEMY'S CONFESSION.

Concedes That the Republican Platform Has Tremendous Strength.

With all these weaknesses one would think this a feeble platform. It is not. It has tremendous strength.—Mr. Bryan's eastern organ, the New York Journal.

Indeed it has, Mr. Free Silverite. You never before were so right in your life. It has tremendous strength, because it puts before the American voters the plain, far proposition of whether they shall choose an economic policy which has put every man and every dollar of capital in the United States to work or a wildcat policy of tariff and currency which will wreck the prosperity of the last three years; whether a national revenue that covers all the government's expenditures and reduces its debt or a deficit that breeds insolvency and bankruptcy; whether open mills, full work and high wages or open mints, declining industries and impoverished homes; whether American plenty and riches or American want and misery.

It has tremendous strength because it puts to the voters the question of national growth to even greater things than ever have been accomplished or national decline to the dire conditions of five years ago, of increased territory, increased markets at home and abroad, increased wealth and increased rights and powers before the nations of the world or a shrinkage and collapse to mean proportions in all respects that measure national prosperity and blessings, because it puts the question of progression or retrogression, of coherence or rot.

It has tremendous strength because it pledges not things to be done, but the preservation from decay and the development to their inevitable finish of things already done.—New York Press.

WHAT IT SHOWS.

"Uncle Sam's Balance Sheet" Produces a Marked Impression.

"Mr. Wakenan left his card in the form of a big yellow poster, which he affixed to the wall of Republican headquarters," says the New York Mail and Express. "It is of interest as being the first of the assertive and triumphant statements of fact to which the Republican party can appeal during the coming months of presidential battle as the warrant of history for its right to project into the future a continuance of its record in the past. Mr. Wakenan's table of statistics is set forth with vivid typographical art."

"It is entitled 'Uncle Sam's Balance Sheet,' and it covers the years as to relative exports and imports from 1856 to 1899. It is classified in periods, headed respectively: 'Democratic Administration—Free Trade,' 'War of the Rebellion,' 'Period of Republican Protection to American Labor and Industry,' 'Democratic Administration, 1893 to 1896,' and 'Protection and Prosperity, 1897 to 1899.' It sets forth graphically the increase in exports from \$337,518,102 in 1856 to \$1,203,912,220 in 1899, together with other figures that prove the barometer of prosperity always to have been depressed during periods of Democratic control and always to have risen when the Republican party has held the administration. Mr. Wakenan received many compliments upon this initial contribution to the literature of the campaign."

Sources of Wealth.

The people of the United States are paying \$1,000,000 a day for tropical products used in American manufactures or for food and drink. Most of the articles can be produced in a more or less degree in the islands which have recently come into closer relationship with the United States. These articles comprise sugar, coffee, silk, rubber, fibers, fruits and nuts, tobacco, tea, cotton, gums, cocoa, spices, rice, cabinet and dye woods, liquorice root, indigo, cork wood, ivory, sponges, etc. As our island possessions begin to develop under American administration we shall procure more of such articles from those sources, and in return for our purchases the people of the islands will buy more of the products of our farms and factories.

The Idaho Mining Troubles.

The majority report of the military affairs committee, into the Coeur d'Alene mining troubles shows that the governor of Idaho is to be commended for his courage and fearlessness, that the conduct of the military is a matter of earnest congratulation to the country and that the president was justified in sending troops to Shoshone county in response to the application of the governor. The military forces under the command of General Merriam were used strictly in aid of the civil authorities, and both President McKinley and the war department exercised every precaution to act solely within the constitution.

If It Were Not.

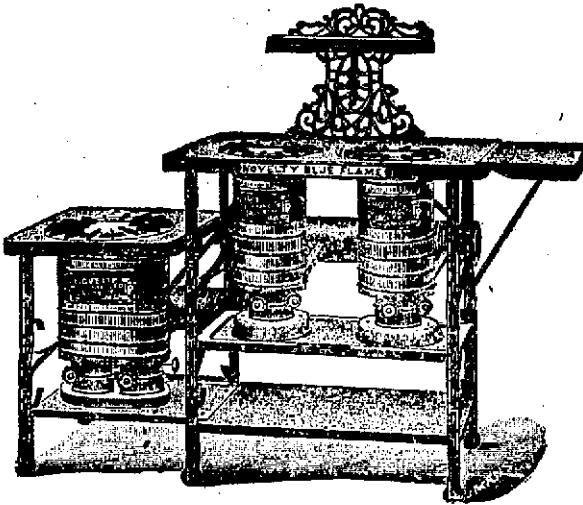

If it were not for the good times, if it were not for the Chicago platform, if it were not for their past record, if it were not that McKinley has been such a promise keeper, if it were not that the American people know a good thing when they have it and if it were not for a few more ifs, it would be safe to bet money on Democratic success this fall.—Harrisburg Telegraph.
